About PFS

Preferred Freezer Services (PFS) offers the most modern, state-of-the-art, full service temperature-controlled warehouses in the United States. We began providing cold storage services in 1989 from a 1.3 million cubic feet warehouse in Perth Amboy, New Jersey and have since expanded to be one of the largest public refrigerated warehouse companies in North America.

PFS is known in the industry for their exceptional customer service that continually exceeds customer expectations creating lasting client-partner relationships.

PFS also provides our client-partners with door-to-door nationwide logistics services resulting in opportunities for cost savings within the frozen supply chain.
